Order by Number Only.

Do not Cut the Book.

DIRECTIONS FOR ORDERING.

Please observe the following Directions in giving orders, as it will often avoid errors and unnecessary delays.

Orders for Sash should state the size of the glass, number of lights in window, thickness, whether plain or check rail, glazed or unglazed. For segment or circle corner windows, always give the radius of the segment and circle corner, otherwise we shall make our regular radius, which is the width of the window. For circle head, segment head, and circle corner windows, always state whether they are wanted to finish circle inside and outside, like Plans 1 and 3, on page 11, or to finish circle on outside only, as Plans 2 and 4 on same page; also, where frames are made, we should have width and height of frame in the clear, and if not regular Western sizes give size of openings.

Orders for Doors should state size, thickness, number of panels and quality; if moulded, say if one or both sides, flushed or raised moulding; if more than five panels make sketch.

Orders for Outside Blinds should state size of glass, number of lights in window, thickness of blinds, stationary or rolling slats; if for segment head windows, give radius of segment; also state if for wood or brick building.

Orders for Inside Blinds should state exact size of opening, the number of folds (width of box, if any), and if panels or slats, and where blinds are to be cut.

Orders for Frames should state whether for a frame or brick building; if for a brick building, give thickness of wall; if for a frame building, give width of studding, and whether outside or inside, or both. For Window Frames, state if for plain or check rail sash, with or without pulleys. For inside door jambs, give the width of the jamb.

Orders for Mouldings should give plainly the number of the Moulding. We use the new Universal Book. (*See Page 277.*)

PLEASE NOTE THE FOLLOWING.

It is economy to conform to regular sizes and styles as much as possible.

Be explicit in giving orders and state fully your wants. Do not assume that we know them.

When ordering work outside of regular styles, as given in this book, give sketch or section. A rude drawing will often answer the purpose.

Plans and drawings in detail should accompany all complicated orders, and specification giving bill of items, sizes, and the quality of material required, thereby saving delay and cost of alterations.

In ordering Sash, Doors, and Blinds *always give the width first.* Use terms, when practicable, as given in this book.

GRADES OF

SASH, DOORS, AND BLINDS,

Adopted by the Wholesale Sash, Door, and Blind Manufacturers' Association of the Northwest.

DOORS.

No. 1 Doors.—Workmanship on No. 1 Doors must be good. Stiles, rails, and panels must be clear, except that white sap and water stain caused by cross-piling lumber is admitted, and small pin knots not exceeding one-fourth (¼) inch in diameter may be allowed. The Standard No. 1 Door may be pinned and the wedges glued, or glued tenons without pins.

No. 2 Doors.—No. 2 Doors may contain knots not larger than one (1) inch in diameter, and may contain blue sap on two (2) sides, and may contain gum spots showing on one (1) side. Other small defects may be allowed, but the total number of defects (not including blue sap) shall not exceed ten (10) in number on each side, and blue sap must not exceed fifty (50) per cent. of any piece of the door. Workmanship must be good, though slight defects therein may be allowed where the quality averages fair. Shaky lumber shall not be admitted. No part of a No. 2 Door, except the top rail, short muntins and short panels, shall be free from some defect.

No. 3 Doors.—No. 3 Doors may contain double the amount of defects that are allowed in No. 2, and the knots and other defects may be coarser. Worm-eaten lumber may be admitted if showing on one side only. Workmanship may be defective, but not enough so to destroy the strength of the door.

WINDOWS.

Check Rail Windows may contain not to exceed two (2) knots in each piece of the sash, said knots not to exceed three-eighths (⅜) inch in diameter. White sap and a small amount of blue sap may be admitted. Workmanship must be good.

Plain Rail Windows and Sash may contain blue sap and (small) knots. Shaky lumber not admissible.

BLINDS.

Outside Blinds must be made of clear lumber, except that small pin knots in the stiles and rails and white sap may be admitted. Shaky lumber is not admitted. Workmanship must be good.

CIRCLE AND SEGMENT TOP WINDOWS.

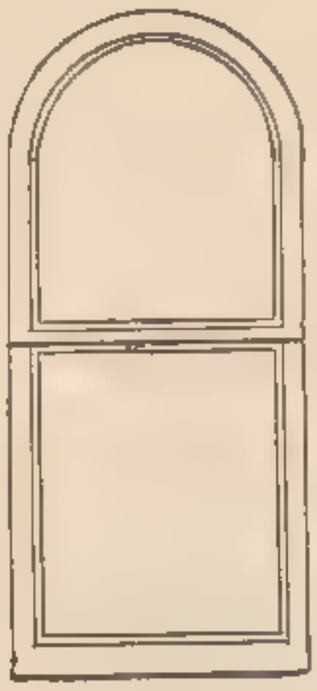

Fig. 1.
For Window Frames, Circle inside and outside.

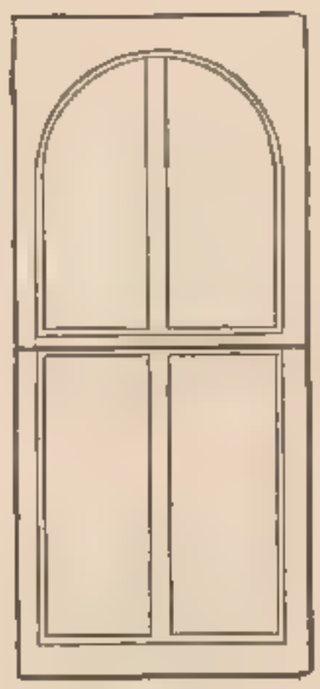

Fig. 2.
For Window Frames, Circle outside, Square inside.

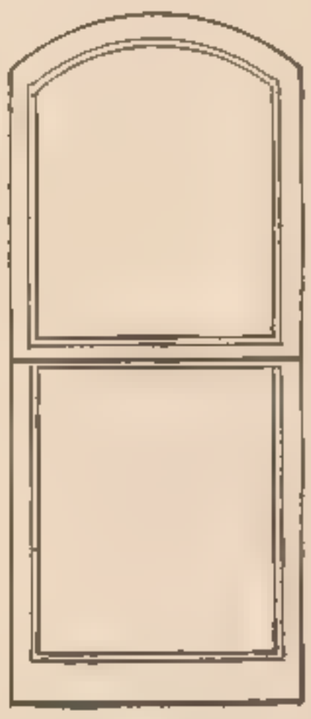

Fig. 3.
For Window Frames, Segment inside and outside.

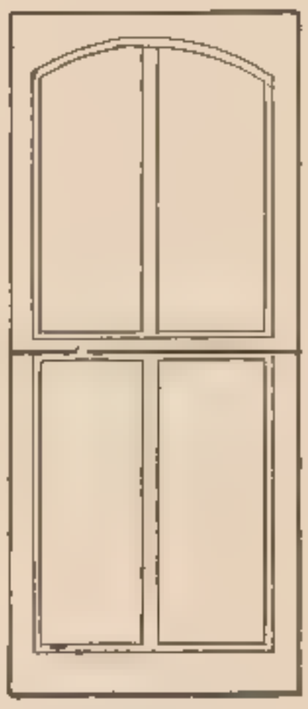

Fig. 4.
For Window Frames, Segment outside, Square inside.

Windows made in the above forms can be filled with any number of lights required.

N. B.—A Window indicates two pieces. A Sash indicates one piece. A pair of Blinds indicates two pieces. A Blind indicates one piece. A set of Sash or Blinds indicates more than two pieces, and order should be accompanied with elevation.

Sizes not listed, extra price.

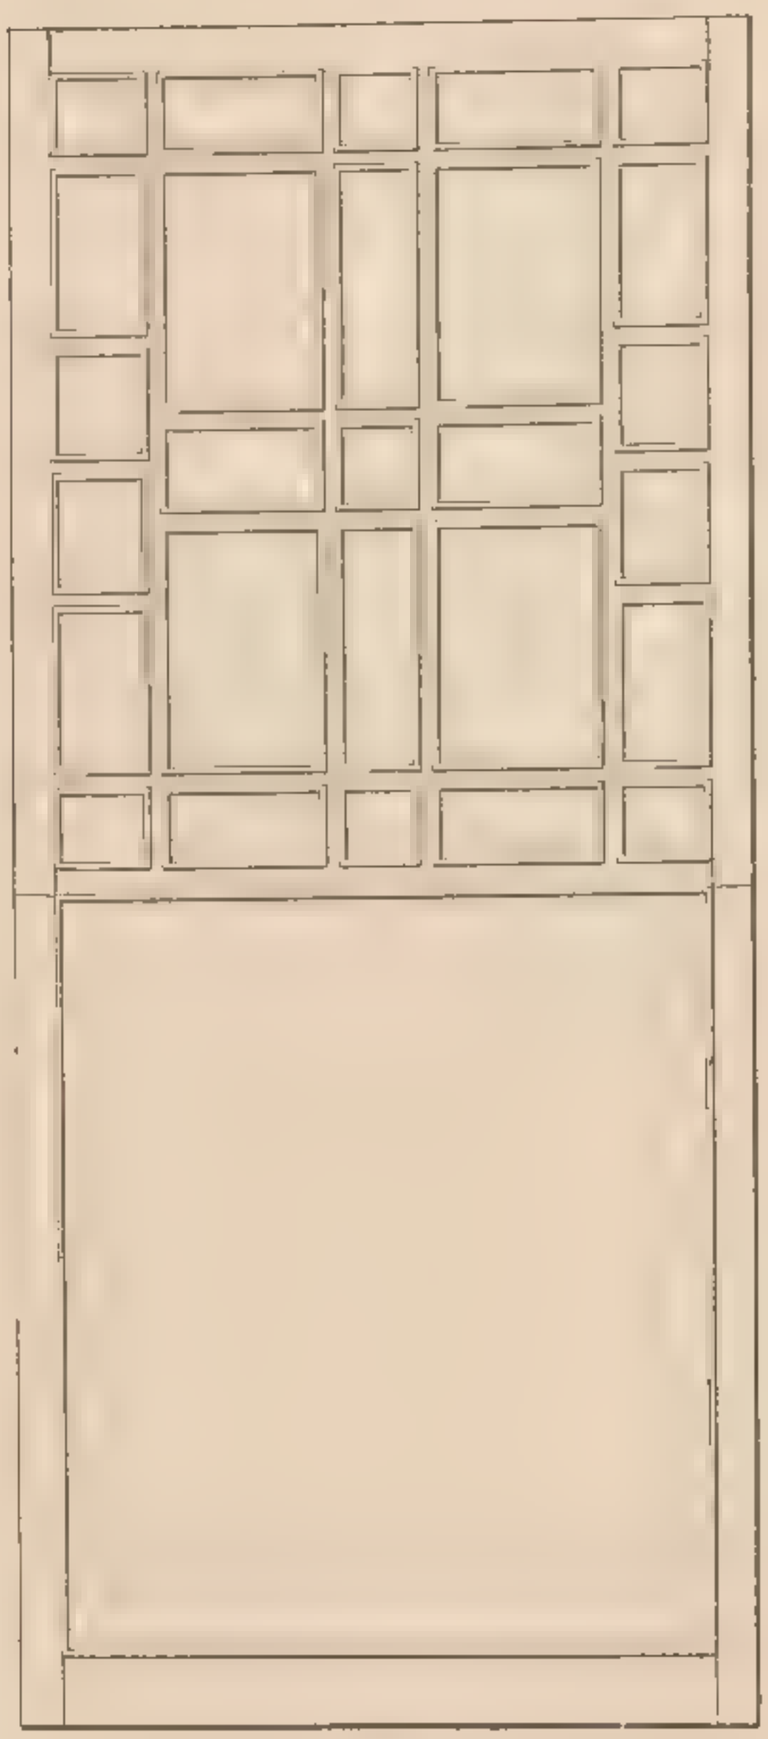
Add for Ventilators in top or bottom rail 10 cents net each; add for Swing Light 40 cents net each; add for Storm Sash, 1⅜ thick, 20 cents net.

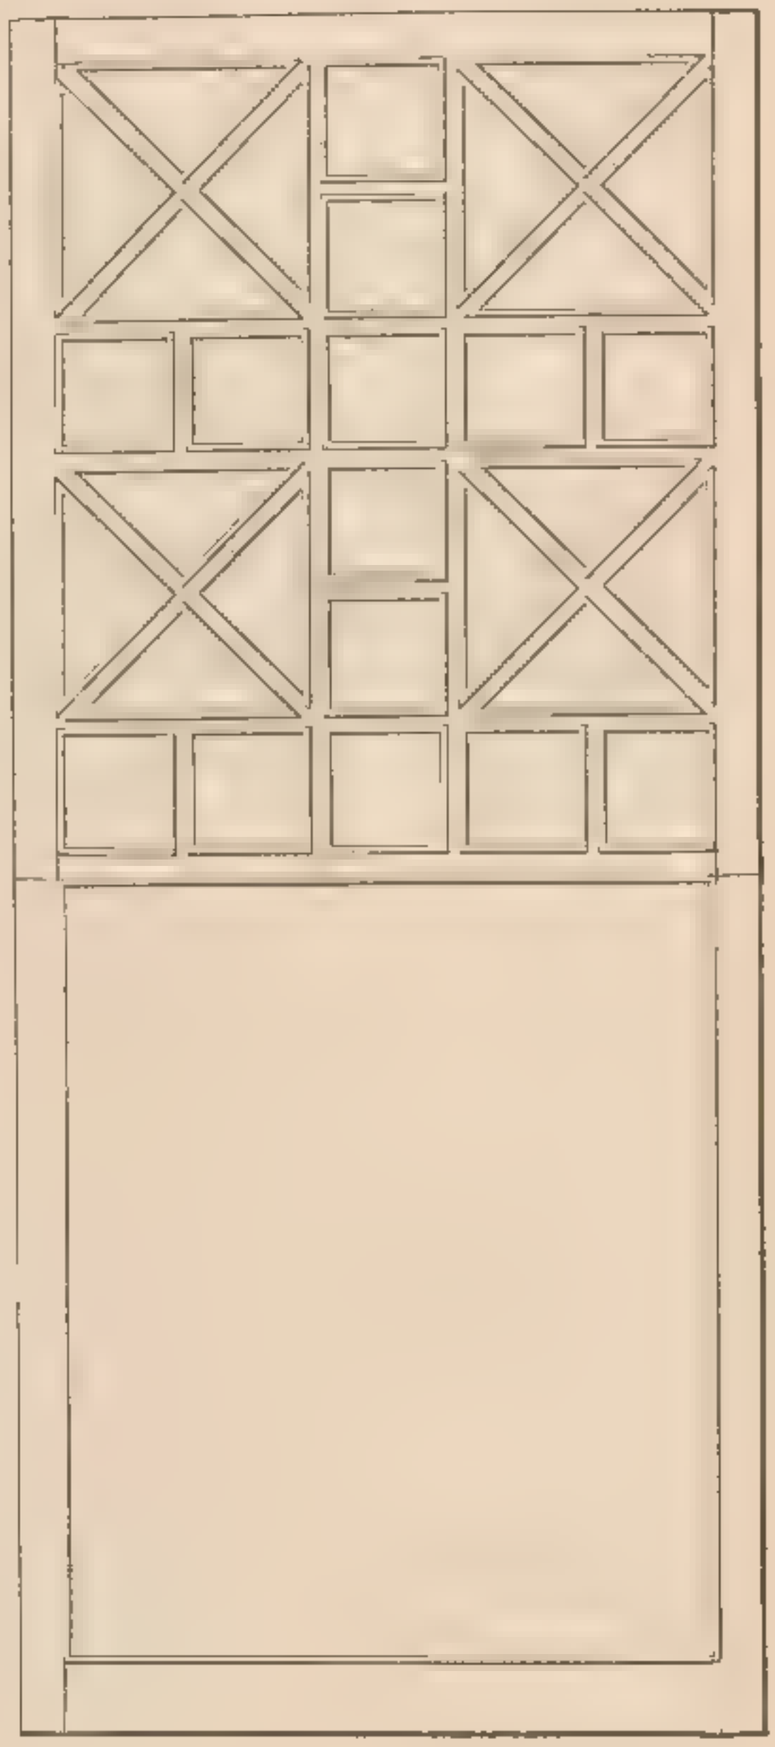
Segment and Circle Heads extra price, same as 1⅜ Check Windows.

Place your orders early for Storm Sash.

QUEEN ANNE SASH.



69



70

We make QUEEN ANNE SASH of every description. On the following pages we give a variety of Windows, also a number of Top Sash in separate cuts. Many of the latter can be utilized as Single Sash by changing the meeting rail to a wide rail. With Nos. 73 and 74 we give cuts of the extended Side Stile (or O G Lug) in vogue in some parts of the country. These cuts are given to facilitate and assist in making orders.

PLEASE BE EXPLICIT IN STATING YOUR WANTS.

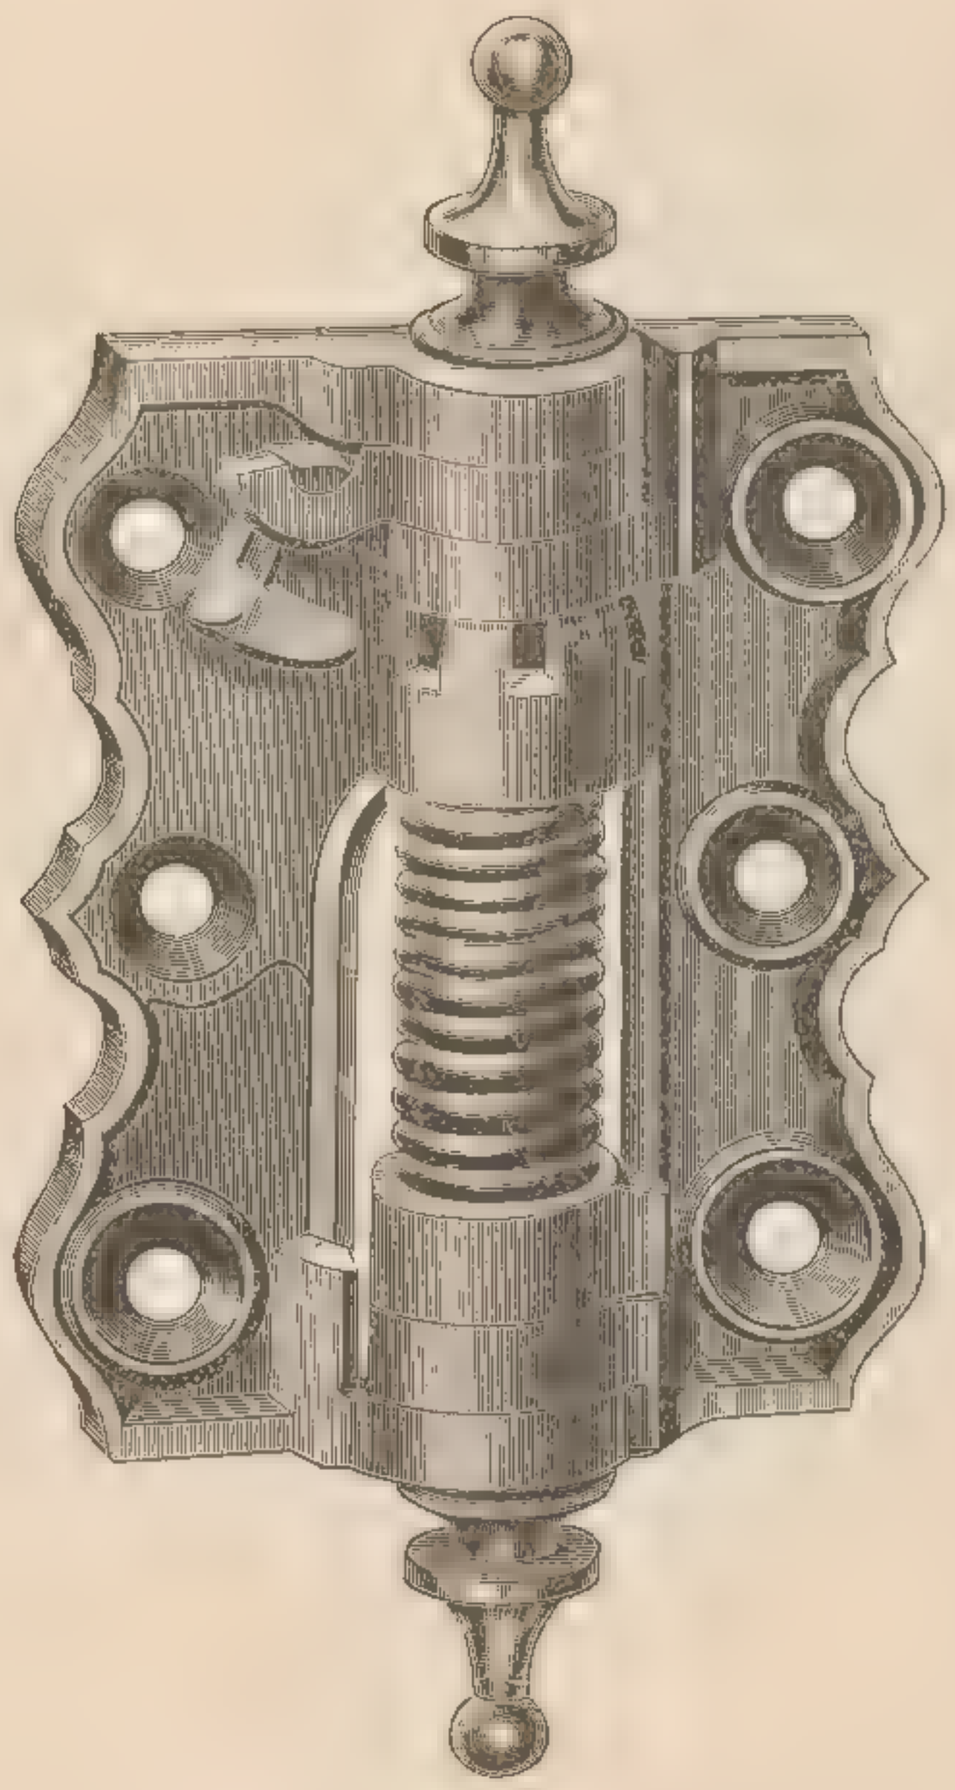
SPRING HINGES FOR SCREEN DOORS.



149—(Full Size Cut.)

Price (including Screws), 12½ cents per pair, net.

Having the Spring Hinge for sale, with the necessary Screws for hanging the Doors, enables the retail dealer to furnish the door and trimmings together, at about the same price (or a trifle higher) that the Door alone is usually sold for, besides proving a convenience and saving to purchasers.

O G FOUR-PANEL INCH DOORS.

DIRECTIONS NECESSARY FOR ORDERING STAIRS AND STAIR RAILING.

When a flight of stairs is wanted, we should know the height of story from floor to floor, width of joists in second story, width and run of stairs, the size of cylinder, style of base used in the hall, with rough sketch showing about the shape of stairs wanted.

FOR STAIR RAILING, STRAIGHT FLIGHT,

We require the width of rise and step as sawed out on string board, the number of risers, the size of cylinder from face to face of string or face board, which way it turns at head of stairs, and the number of feet of straight rail required at landing. Unless we receive plan showing otherwise, we always suppose the top riser for a straight flight of stairs to be placed at the edge or spring of cylinder.

FOR CIRCULAR OR WINDING STAIRS,

We should have an exact plan of stairs as built, giving the width of rise and step, the location of risers in cylinder, etc.; and, when there are straight steps below or above the cylinder, always give the distance from the first square riser to the edge or spring line of cylinder, on the face of string or face board. *Always write your address in full on the plans.*

PRICE LIST OF STAIR WORK.

Outside Posts, Newels, Balusters, Etc.

BALUSTERS.

We turn all our Stair Balusters 2 ft. 4 in. and 2 ft. 8 in. long, unless otherwise ordered. Are prepared to furnish, on short notice, any length or style desired. Odd lengths cost extra.

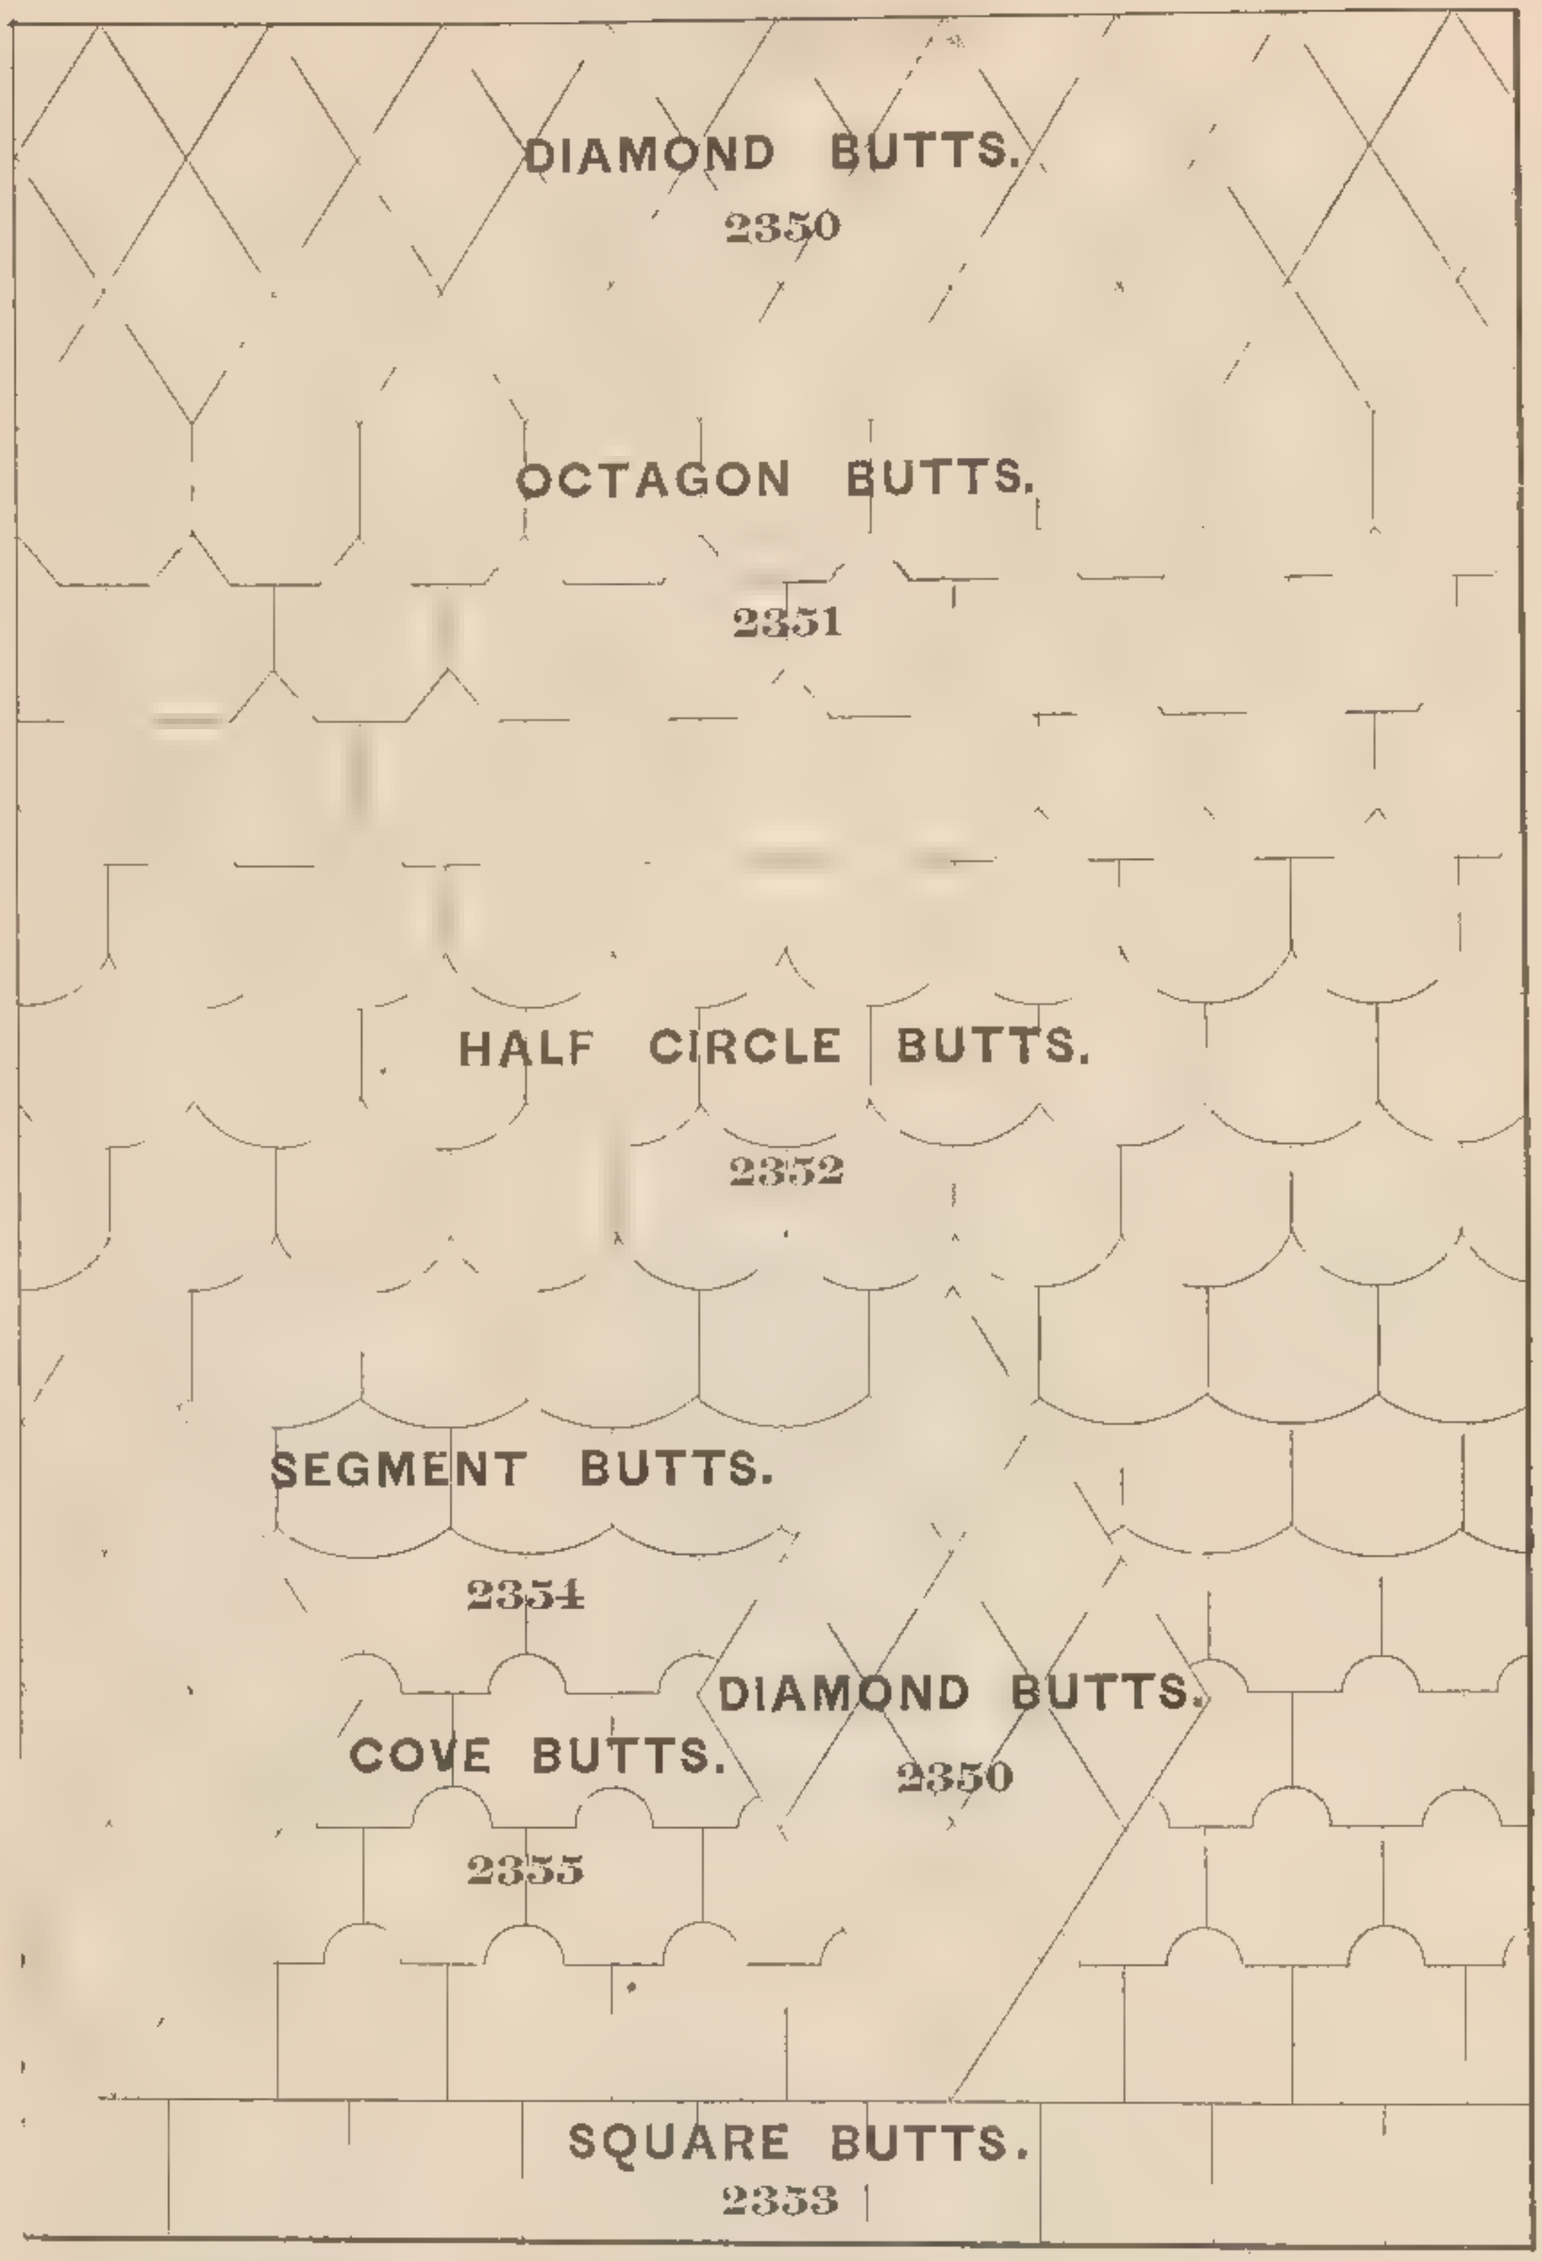
DIMENSION SHINGLES.



We are prepared to furnish Ornamental Shingles, cut to any shape desired, and can offer inducements in prices. Write for quotations.

SHINGLES REQUIRED IN A ROOF.

To the square foot it takes 9 if exposed 4 inches, 8 if exposed 4½ inches, and 7 1-5 if exposed 5 inches to the weather.

Find the number of Shingles required to cover a roof 38 feet long and the rafters on each side 14 feet. Shingles exposed 4½ inches:

Ans. $28 \times 38 = 1064$ (sq. ft.) $\times 8 = 8512$ Shingles.

Cubic Yard—600 bricks in wall.

Perch (22 cubic feet)—500 bricks in wall.

To pave 1 square yard on flat requires 41 bricks.

To pave 1 square yard on edge requires 68 bricks.

One-fifth more siding and flooring is needed than the number of square feet of surface to be covered, because of the lap in the siding and matching in the flooring.

One thousand lath will cover 70 yards of surface, and 11 pounds of lath nails will nail them on. Eight bushels of good lime, 16 bushels of sand, and 1 bushel of hair will make good enough mortar to plaster 100 square yards.

A cord of stone, 3 bushels of lime, and a cubic yard of sand will lay 100 cubic feet of wall.

Five courses of brick will lay 1 foot in height on a chimney. Six bricks in a course will make a a flue 4 inches wide and 12 inches long, and 16 bricks in a course will make a flue 8 inches wide and 16 inches long.

LUMBER MEASUREMENT.

READY RECKONER.

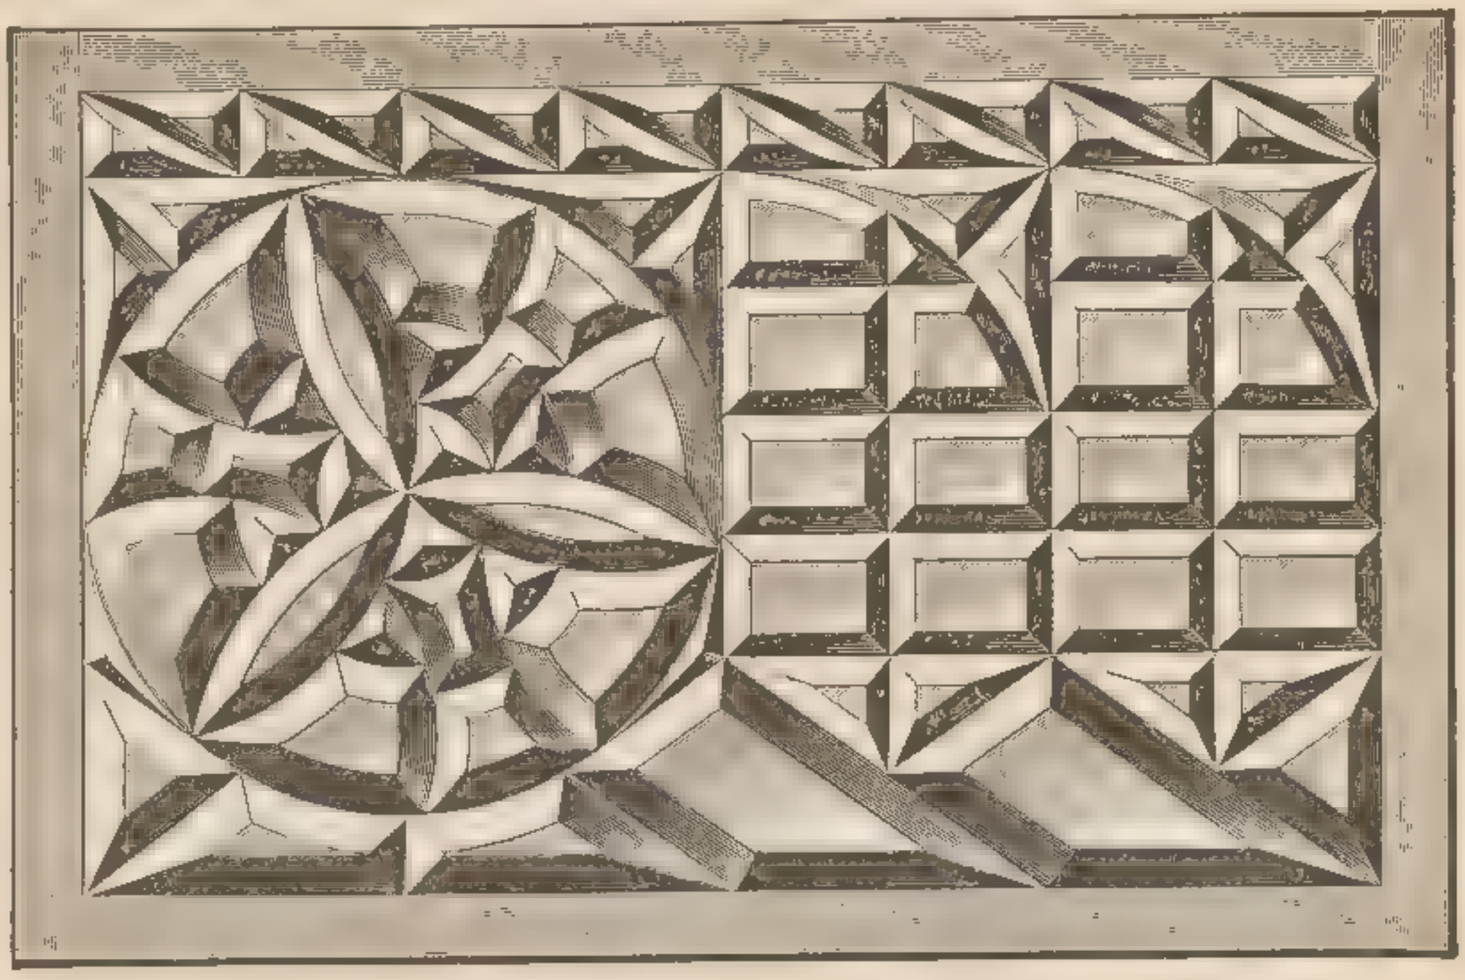
ORNAMENTAL GLASS.



2400—Beveled Glass, Showing Center and One End of Transom Light.

Ornamental Glass.

We are prepared to furnish

PRISMATIC, EMBOSSED, CATHEDRAL,
CUT, OR GROUND

Glass

In an almost endless variety of Colors and Designs, for

Doors, Windows, Transoms,

VESTIBULES, Etc.

We give, on pages following, a number of patterns from which customers can make selections. Cut and Embossed Glass can be adapted to any shape of Windows, Doors, or Transoms. Prismatic Glass is so moulded as to produce an external effect of elaborately Cut Glass, and is susceptible of numerous pleasing combinations, both as to form and colors, and is especially adapted to Queen Anne work. We solicit correspondence and estimates.

ENAMELED GLASS AND GLASS MEASURE.

PRICE OF ENAMELED GLASS.

DESCRIPTION.	Single Thick, per Square Foot.	Double Thick, per Square Foot.
Clear per Square Foot.	25 cents.	30 cents.
Obscure " "	30 "	35 "

We keep a variety of choice patterns in Enameled Glass, and customers can rely on neat and tasty designs when selections are left to us.

SIZES OF GLASS IN DOORS.

SIZES OF DOORS.	TWO-LIGHT SASH DOORS.		ONE-LIGHT SASH DOORS.		GARFIELD and JENNY LIND DOORS.	
	Width.	Length.	Width.	Length.	Width.	Length.
Ft. In. × Ft. In	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
2 6 × 6 6	9 1 2	38	20 3-4	38	21	36
2 8 × 6 8	10 1-2	40	22 3 4	40	23	38
2 10 × 6 10	11 1-2	42	24 3-4	42	25	40
3 0 × 7 0	12 1-2	44	26 3 4	44	27	42

SIZES OF DOORS	CONGRESS DOORS.		LINCOLN DOORS.		BISMARCK DOORS.	
	Width.	Length.	Width.	Length.	Width.	Length.
Ft. In. × Ft In.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
2 6 × 6 6	21	38	17	32	21	22
2 8 × 6 8	23	40	19	34	23	24
2 10 × 6 10	25	42	21	36	25	26
3 0 × 7 0	27	44	23	38	27	28

SIZES OF DOORS.	GRANT DOORS.		OSHKOSH DOORS.		INDIANA DOORS.	
	Width.	Length	Width.	Length.	Width	Length.
Ft. In. × Ft. In.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
2 6 × 6 6	21	36	21	32	21	38
2 8 × 6 8	23	38	23	34	23	40
2 10 × 6 10	25	40	25	36	25	42
3 0 × 7 0	27	42	27	38	27	44

Any addition to the length of above sizes of Doors adds the same difference to the length of Glass. For example: a Door 3-0 x 7-6 requires a Glass 6 inches longer than a 3-7, etc.

SQUARE FEET OF GLASS IN DOORS.

To obtain the number of square feet of Glass in above Doors, take the sizes of Glass as given above, and refer to the table on following page. Odd and fractional parts of inches are charged at the price of the next highest even inches. For example: a light 22⅓ x 41½ will be figured at 24 x 42.

WEIGHTS OF DIFFERENT ARTICLES.

Lime (quick), per cubic foot	50 Lbs.	Granite, per cubic foot	165 Lbs
" " " barrel	220 "	Marble, " " "	169 "

To Approximate Weight of Polished Plate Glass, Boxed.

Extend the glass at 3½ lbs. per square foot. Weight of box equals the contents of a plate of greatest width and length of those packed therein, multiplied by 10. Thus:

1 plate 36″ × 96″
1 " 60″ × 84″ } = 59 ft. × 3½ = 206½ lbs.
Size of box 60″ × 96″ = 40 ft. × 10 = 400

606½ lbs.

Irregular shaped glass, or glass cut to patterns, will be charged as it squares.

Plates containing over 120 square feet, list price $5 per square foot or fraction.

On orders for one or two plates only, a charge of 6 foot of box-lid will be invariably made to cover cost of boxing.

Odd and fractional parts of inches are charged at the price of the next highest even inches.

REVISED EDITION

OF THE

New Universal

oulding Book

CONTAINING

Latest Styles of Mouldings,

IN GREAT VARIETY,

Giving Full Size of Mouldings and their Exact Measurement in Inches on each Moulding.

FOR PRICES, SEE PAGES 331 and 332.

Mouldings.

We keep in stock a large and complete Assortment of Mouldings ready for shipment, and have facilities unsurpassed for furnishing on very short notice any style of Moulding or

Inside Finish

that may be desired, either in Yellow or White Pine or in any of the native woods.

We give careful attention to the quality of our work, and spare no effort to make it equal, if not superior, to the very best in the market.

In ordering, please use the numbers on each Moulding to indicate the pattern and size wanted.

EQUATION OF PAYMENTS.

A Good Rule for Common Purposes.—Multiply each debt by the number of days between its own date of maturity and that of the debt earliest due, and divide the sum of the products by the sum of the debts; the quotient will express the common time in days subsequent to the leading date.

Example:—

1886,	April	10,	$250.26,	time	6	months, Due	Oct.	10,
"	June	25,	320.56,	"	6	" "	Dec.	25,
"	July	10,	50.62,	"	3	" "	Oct.	10,
"	Aug.	1,	210.84,	"	4	" "	Dec.	1,
"	Aug.	18,	73.40,	"	5	" "	Jan.	18,
"	Oct	15,	100 00,	"	Cash,		" Oct.	15,

} Find Average Due.

Practical method of stating and working:

1886,	Due	Oct.	10,	$301		
"	"	Dec.	25,	321	× 76 =	24396
"	"	Dec.	1,	211	× 52 =	10972
"	"	Jan.	18,	73	× 100 =	7300
"	"	Oct.	15,	100	× 5 =	500
				$1,006	)	43168 (43 days from Oct. 10.

Ans., Nov. 22, 1886.
